

Water in India

- Good business with new water and climate adaptation technologies

A delegation with Danish SMEs and knowledge institutions will travel to India (New Delhi and Udaipur) in week 48, 2018. The delegation will meet knowledge institutions, companies, industry associations, and other relevant stakeholders in India. Furthermore, matchmaking events and meetings will be supported. This workshop will give more information about the study tour.

This is a co-arrangement with the Innovation Centre Denmark in New Delhi and the innovation network Water in Urban Areas. Posts in the day will be in English

Time: Thursday May 31th, 09.30 - 13.00

Location: Danish Technological Institute, Gregersensvej, Meeting room 3.1.2, Entrance 3, 2630 Taastrup, Denmark
